### SUCCESSFULLY TREATED FOR CANCER OF THE BREAST

Nevada, Mo., Woman, Treated Five Years Ago, Says She is Cured.

Mrs. C. W. Bibens, 430 South Olive St., Nevada, Mo., had a bad cancer of the breast, when she went to the famous Kansas City specialist, Dr. O. A. Johnson, 1324 Main St., Kansas City, Mo. She now states:

"As it has been some time since you heard from me, I feel that I should let you know my condition at this time. I deem it a duty to let you know, in fact, to let the whole world if possible that I am really and truly cured of cancer of the left breast. It has been over four years (I came to you October 6, 1914) since I was discharged from your tender care and treatment of my old trouble I think I can now safely say that I am completely cured."

"I have never forgotten, nor never can forget, your kindness to me while at your institution."

The above was written to Dr. O. A. Johnson, Suite 524, 1324 Main St., Kansas City, Mo., the physician who treated Mrs. Bibens so successfully. Dr. Johnson is perhaps the best informed man in the United States to day on cancer. He conducts a large institution for the treatment of cancer, in connection with which is also maintained a laboratory for scientific cancer research. Thousands of cases have been investigated and treated in the past twenty years. This treatment is entirely non-surgical. Purely medical measures only are employed; that is, external applications to destroy the cancer and internal.

Dr. Johnson has published a most interesting book called "Cancer Truths," being a statement of his theories and experiences in treating cancer. This book will be sent gladly to any cancer sufferer, or if you have a friend afflicted with that disease, get the book for him. Simply address Dr. O. A. Johnson Suite 524, 1324 Main St., Kansas City, Mo. d&wt
